

KLOVE is a radio station I feel comfortable listening to with my daughter and her friends. If they were to be displaced by an LPFM I may not have the same choice of a guaranteed family listening station. With KLOVE, I am guaranteed that nothing offensive will be broadcast while I am listening. I believe if more people were able to receive KLOVE, it would be of great moral value to the public. I think we are often times brainwashed without realizing it. We listen mindlessly while we drive or work around the house and whatever is on just kind of sinks in. So much today that comes into our homes doesn't teach anything of value. I would like to maintain the ability to receive a program like KLOVE.
